EDUCATION

- 2023 - 2026**
SRM EASWARI ENGINEERING COLLEGE
- Bachelor of Engineering in Computer Science and Engineering
 - CGPA: 7.0 / 10
- 2019 - 2022**
SAIRAM POLYTECHNIC COLLEGE
- Diploma in Mechanical Engineering
 - Percentage : 89%

SKILLS

- **Programming Languages:** Java, Golang
- **Frameworks & Technologies:** Spring Boot, React, Flutter, REST APIs, Microservices
- **Databases & Cloud:** MySQL, Firebase Firestore
- **Tools & Platforms:** Git, GitHub, Postman
- **Core CS Concepts:** Data Structures, OOP
- **Soft Skills:** Problem-Solving

CERTIFICATIONS

- [The Java Language \(LearnQuest via Coursera\)](#)
- [AWS Technical Essentials](#)

PROFILE SUMMARY

Computer Science Engineering graduate with hands-on experience in backend development using Java (Spring Boot) and Go (Fiber). Experienced in building scalable RESTful APIs, working with MySQL and Firebase, and developing real-world applications through projects and internship experience. Strong in problem-solving, API design, and microservices architecture, seeking an entry-level Software Engineer role

WORK EXPERIENCE

PercyBen OPC Private Limited **DECEMBER 2025 -FEBRUARY 2026**
Software Intern

- Developed and maintained 10+ RESTful APIs for the BB App using Go (Fiber) in a microservices architecture
- Designed database schemas and backend workflows for core modules, improving system scalability and data consistency
- Collaborated with frontend teams to define API contracts and deliver efficient, feature-driven endpoints
- Implemented data modeling and optimized CRUD operations using GORM with MySQL
- Wrote unit tests to ensure code reliability, stability, and maintainability across microservices

Shriram Matriculation School **JANUARY 2025 -AUGUST 2025**
Python Instructor

- Conducted Python programming sessions for students, covering core fundamentals.
- Helped students build logical thinking through practical coding exercises.

Sanmar Engineering Private Limited **JULY 2022 - JULY 2023**
Junior Engineer Trainee

- Monitored and improved production workflows to support operational efficiency.
- Performed quality inspections on subcontracted products to ensure compliance with standards.

PROJECT

BusTrackPlus

Tech Stack: Flutter, Dart, Firebase Firestore, Java, Spring Boot, Microservices Architecture, MySQL

Overview:

- Developed backend services using Spring Boot REST APIs
- Designed MySQL database schema for bus and pass management
- Integrated Firebase Firestore with Flutter frontend
- Applied microservices architecture for modular backend services
