

RISHI PANNEERSELVAM

Software Engineer

Chennai, Tamil Nadu, India | +91 9941796850 | rishipanneerselvam@gmail.com | rishi-panneerselvam.web.app

PROFILE

Computer Science Engineering graduate with internship experience developing scalable backend applications using Java (Spring Boot) and Go (Fiber). Experienced in REST APIs, MySQL, Firebase, and microservices, with a passion for backend engineering and building production-ready software.

EXPERIENCE

Software Intern

PercyBen OPC Private Limited

Dec 2025 – Feb 2026

Worked on the BB App backend using Go (Fiber) in a microservices architecture, where I developed and maintained 10+ RESTful APIs, designed MySQL database schemas, optimized CRUD operations with GORM, collaborated with frontend developers to define API contracts, and wrote unit tests to improve service reliability.

Python Instructor

Shriram Matriculation School

Jan 2025 – Aug 2025

Conducted Python programming sessions covering programming fundamentals and practical coding exercises, helping students strengthen logical thinking and problem-solving skills through hands-on learning.

Junior Engineer Trainee

Sanmar Engineering Private Limited

Jul 2022 – Jul 2023

Supported manufacturing operations by monitoring production workflows, performing quality inspections on subcontracted products, and ensuring compliance with quality standards, which strengthened my analytical thinking and attention to detail.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

SRM Easwari Engineering College

CGPA: 7.0/10

2023 – 2026

Diploma in Mechanical Engineering

Sairam Polytechnic College

Percentage: 89%

2019 – 2022

TECHNICAL SKILLS

Java

Go

Spring Boot

Flutter

React

REST APIs

Microservices

MySQL

Firebase

Git

GitHub

PROJECTS

BusTrackPlus – Smart Bus Management System

Smart bus management system built with Flutter, Spring Boot, MySQL, Firebase Firestore, and Microservices for digital bus passes, ticketing, and REST APIs.
